

COMPOUND WORDS

Read the text and underline eight words that have something in common.

Michael was ready for the journey of his life. He was going to Madagascar to spend one whole week in the jungle with his friends.

- 'Michael, have you packed everything that you need?' - asked his mum.

- 'Yes, mum. I even packed my flashlight!' - responded Michael.

- 'What about your sunglasses? Are they in your backpack? Have you got a pen? You need to send me a postcard!' - asked worried mum.

- 'Yes, mum. I've got everything!' - responded Michael with irritation

- 'Can we leave to the railway station already? There may be traffic on the motorway and I don't want to miss my train to the airport!'

They got into the car and drove towards the station. As the city was disappearing in the back window, Michael thought how much he was going to miss the city and its skyscrapers.

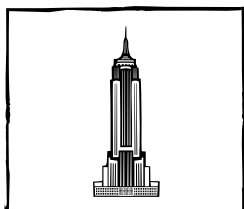

Write the words below and divide them into two separate words.

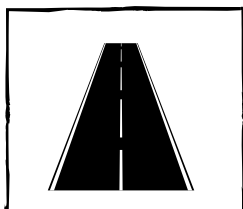

What do we call words that are made of two single words?

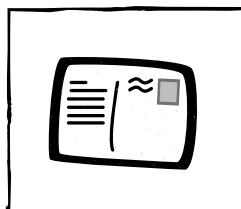

FLYERS

COMPOUND WORDS

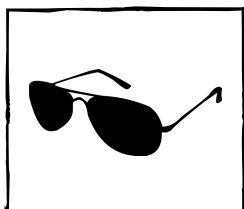

Write the compound words below the pictures.

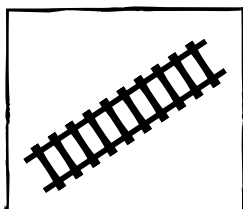

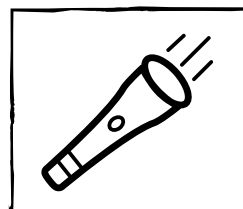

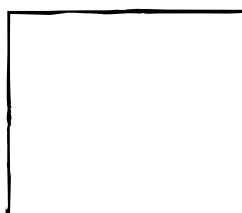

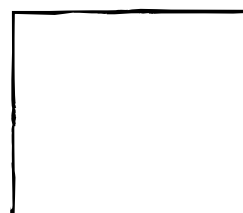

Draw two words that form the compound words.

skyscraper
